

CASE STUDY UPDATE: SPORTS MEDICINE

Dr. Andy Grotting *Orthopedic Surgeon,
San Diego, CA*

- **# Years in Practice:** 9 years
- **Specializations:** Sports Medicine
- **Used Prior to Brijit:** 2-Octyl Cyanoacrylate-based skin glues
- **Why He Made the Switch to Brijit:** Avoiding contact dermatitis, and improved cosmesis

85 consecutive sports medicine patients using Brijit placed above final closure layer, with 137 surgical components

- **130 lower extremity,
7 upper extremity**
- **Wound dehiscence/delayed
wound healing - 0**
- **Surgical site infection – 0**
- **Reoperation/Admission – 0**
- **Allergic reaction – 0**
- Well accepted by patients and
physical therapists

**“BRIJ offers something none of these other
companies do - a full wound system that will
leave my patients happier long term.**

The Brijit devices have made a big difference in my practice and given me a lot of confidence in wound healing. Not only am I less concerned about wound complications, but the cosmetic appearance of scars is dramatically improved.”

**Full review
expected -
Fall 2025**
